

SCULPTURE WALK

The 'Sculpture Walk' map for cultural exercisers is a compiled map of the outdoor sculptures and environmental art works that are located in the city centre and that belong to the Turku City Art Collection. There are three alternative routes. The first route takes you to Puolala Park and the western bank of the River Aura, while the second circles from Samppalinna Park to the eastern bank of the River Aura, and the third takes you to Turku's old city centre and the university. The works along the colour-coded routes are indicated with numbers. You can find the rest of the outdoor sculptures and environmental art works that belong to the Turku City Art Collection online, through the Citynomadi map service, under the route name *Taidetta Turun katukuvassa*.

All cultural exercise routes are available at www.turku.fi/kulttuurikuntoilu.
The route maps are also available on mobile devices.

The lengths of the routes are approximately:
Route 1: 7,5 km, route 2: 3 km and route 3: 4 km.
