

BURJ AL ARAB TERRACE
DUBAI, UAE
(together with ADMARES)

The terrace island is 102m long, 119m wide
and 3.7m high at the highest point.

The terrace gives the existing 7- star hotel a
needed spectacular beach front extension.

SIGGE ARCHITECTS

Best building in the world - WORLD ARCHITECTURE AWARDS 2001 - Finnish embassy in Berlin, Germany

SIGGE ARCHITECTS

We offer high class Scandinavian architectural design services. We are one of the biggest architectural firms in Finland. Our approach in design focuses on functionality, simplicity and clarity, with a human dimension. As a forward-looking progressive office we are open minded and relish new and challenging tasks.

We are a strong and established firm especially in the following fields: public and commercial buildings, shopping malls, educational buildings, sport arenas and stadiums, pharmaceutical buildings, hospitals, embassies, traffic and shipping terminals. We also design a variety of housing projects that include one family houses and large apartment complexes.

Our clients include cities, communities, states, institutions, industries, banks as well as private businesses and citizens. **SIGGE** Architects has been awarded the highest AAA credit rating by Soliditet in 2015.

In 2001 our design of Finnish Embassy in Berlin, Germany was selected as the "Best Overall Building in the World" and "Best Office Building in Europe" in World Architecture Awards in Hong Kong.
